THE FCC PUBLIC SAFETY & HOMELAND SECURITY BUREAU ANNOUNCES DEACTIVATION OF THE DISASTER INFORMATION REPORTING SYSTEM FOR SUPER TYPHOON MAWAR

The Federal Communications Commission (FCC) has deactivated its Disaster Information Reporting System (DIRS) for Super Typhoon Mawar¹ at the request of the Guam Governor's Office and in coordination with the Department of Homeland Security Cybersecurity and Infrastructure Security Agency and the Federal Emergency Management Agency. Communications providers do not need to provide any additional reporting in DIRS in connection with this event. The FCC will, however, continue to monitor the status of communications services and work with providers and government partners as needed to support remaining restoration efforts.

Effective today, no further reports in DIRS are requested in response to Super Typhoon Mawar. Also, effective today, Network Outage Reporting System reporting obligations under Part 4 of the Commission's rules,² which were suspended for providers reporting in DIRS while DIRS was activated, are now again in effect for new network outages in the areas covered by DIRS reporting for Super Typhoon Mawar.

If there are major changes, whether improvements or setbacks, to the status of communications in the affected areas, the FCC asks communications providers to supply that information directly to FCC personnel using the contact information below. The FCC continues to be available to address emergency communications needs related to Super Typhoon Mawar 24 hours per day, seven days per week through our 24-hour operations center, which can be reached at (202) 418-1122 or fccops@fcc.gov. This combination of measures will provide the Commission with the necessary situational awareness as service restoration continues.

The FCC appreciates the cooperation of all the communications providers that voluntarily submitted data into DIRS in the aftermath of Super Typhoon Mawar. In disaster situations, information on the operational status of communications services provides critical situational awareness and supports effective emergency response and restoration efforts. The FCC published its final daily communications status report for Super Typhoon Mawar today, June 15, 2023.

For further information, please contact:

Michael Caiafa (202) 418-1311, (540) 834-7401 (cell), michael.caiafa@fcc.gov
David Ahn (571) 232-8487 (cell), (202) 418-0853, david.ahn@fcc.gov
Jay English (352) 640-4074 gerald.english@fcc.gov
FCC 24/7 Operations Center – 202-418-1122 fccops@fcc.gov

¹ DIRS is a voluntary, web-based system that communications providers, including wireless, wireline, broadcast, cable and Voice over Internet Protocol providers, can use to report communications infrastructure status and situational awareness information during times of crisis.
